

A Series of One-hour Online Workshops to Become a WriteCycle™ Expert

WriteCycle Academy

Professional Development Where You Want It — ONLINE!

“How To” Sessions for Integrating Turnitin and WriteCycle Into Your Curriculum

The WriteCycle Academy is a series of highly interactive webinars geared toward taking instructors beyond just plagiarism prevention and toward a powerful pedagogy for ‘writing to learn.’ Developed and taught by a college professor and Turnitin power user, each one-hour session explores practical elements of using the entire WriteCycle solution in the instructional process.

There’s no cost to participate in these valuable professional development webinars. Pre-registered participants will receive certificates of completion (note that use of this session for continuing education credit depends on your institution’s policies).

Each session presents instructors with a variety of practical methods and activities to help students by:

- Encouraging original writing and responsible use of source material
- Delivering richer and more meaningful feedback
- Facilitating the ‘Peer Factor’ in peer review activities

Participate in one or all of five different sessions:

- *Best Practices for Teaching with WriteCycle*
- *Teaching Students Accurate & Effective Source Integration*
- *Assessing Student Writing with WriteCycle for Instructors & Writing Programs*
- *Managing Students & Coursework Online*
- *Teaching the Writing Process with WriteCycle*

The WriteCycle Academy is for:

- Secondary & postsecondary instructors in any discipline who use written assignments for student assessment
- New or experienced Turnitin and WriteCycle users
- Instructors who teach writing or writing-intensive courses, including Writing Across the Curriculum (WAC), Communicating Across the Curriculum (CAC) and Writing in the Discipline (WID) programs

Current schedule and registration information (plus recorded versions of past sessions) can be found at:
